

Computer Networks - Introduction to Computer Networks

Duration: 10 minutes.

* Indicates required question

1. Email *

2. Full name *

3. Student ID *

4. Which of the following is an example of a network layer (layer 3) protocol in the five-layer TCP/IP model? * 2 points

Mark only one oval.

- ☐ IP
- ☐ Ethernet
- ☐ UDP
- ☐ TCP

5. Which of these is an example of something that works on the application layer (layer 5 of the five-layer TCP/IP model)? * 2 points

Mark only one oval.

- ☐ UDP
- ☐ An ethernet cable
- ☐ A router
- ☐ A browser

6. Which layer of the five layer TCP/IP model deals with cabling and connectors? *

2 points

Mark only one oval.

- ☐ The physical layer
- ☐ The transport layer
- ☐ The application layer
- ☐ The network layer

7. Which level of the TCP/IP five-layer model does a router operate on? *

2 points

Mark only one oval.

- ☐ The transport layer
- ☐ The application layer
- ☐ The data link layer
- ☐ The network layer

8. On which layer are Ethernet standards and some wireless technologies operating? *

1 point

Mark only one oval.

- ☐ The network layer
- ☐ The transport layer
- ☐ The data link layer
- ☐ The physical layer

9. What does LAN stand for? *

1 point

Mark only one oval.

- ☐ Large area network
- ☐ Local area network
- ☐ Little area network
- ☐ Locally available network
