

Computer Networks - Routing

Duration: 10 minutes.

* Indicates required question

1. Email *

2. Full name *

3. Student ID *

4. Which of the following are types of Interior Gateway Protocols? *

2 points

Check all that apply.

- ☐ Link State Routing Protocols
- ☐ Distance-Vector Protocols.
- ☐ Hypertext Transfer Protocol
- ☐ Transmission Control Protocol

5. Who is permitted to use non-routable address space? *

2 points

Mark only one oval.

- ☐ The IANA
- ☐ Anyone
- ☐ The IETF
- ☐ No one

6. A typical routing table may contain which of the following? *

2 points

Check all that apply.

- ☐ Total Hops
- ☐ Destination Network
- ☐ TTL
- ☐ Destination Address

7. What is the difference between Interior Gateway Protocols and Exterior Gateway Protocols? *

2 points

Mark only one oval.

- ☐ Interior gateway protocols share information with public networks. Exterior gateway protocols are used for private networks.
- ☐ There is no difference between them.
- ☐ Interior Gateway Protocols share information within a single autonomous system. Exterior Gateway Protocols are used for the exchange of information between independent autonomous systems.
- ☐ Interior gateway protocols share information with multiple autonomous systems. Exterior Gateway Protocols are used for the exchange of information between independent autonomous systems.

8. Which of the following are non-routable IP addresses? *

2 points

Check all that apply.

- ☐ 1.1.0.0
- ☐ [172.16.0.0/12](#)
- ☐ [192.168.0.0/16](#)
- ☐ [10.0.0.0/8](#)
