

Computer Networks - POTS and Dial-up

Duration: 10 minutes.

* Indicates required question

1. Email *

2. Full name *

3. Student ID *

4. Another term for POTS, or Plain Old Telephone Service, is _____.*

2 points

Mark only one oval.

- ☐ Public Available Telephone Network
- ☐ Public Switched Telephone Exchange
- ☐ Phone Switched Transport Network
- ☐ Public Switched Telephone Network

5. A baud rate is a measurement of the number of _____.*

2 points

Mark only one oval.

- ☐ bits that can be sent across a telephone line every minute
- ☐ bytes that can be sent across a telephone line every second
- ☐ bits that can be sent across a telephone line every second
- ☐ bytes that can be sent across a telephone line every minute

6. What system did Duke grads build that is still in use today? *

2 points

Mark only one oval.

- ☐ POTS
- ☐ PSTN
- ☐ USENET
- ☐ DSL

7. Which device is used to transfer data across a dial-up connection? *

2 points

Mark only one oval.

- ☐ ATM
- ☐ Modem
- ☐ Ethernet cables
- ☐ USENET

8. Modems take data that computers can understand and turn them into _____ that can be transmitted over POTS. * 2 points

Mark only one oval.

- ☐ Audible wavelengths
- ☐ Baud rates
- ☐ Modulating electrical charges
- ☐ PSTN
