

Software Architecture - Documenting Architectures

Time: 15 minutes.

* Indicates required question

1. Email *

2. Full Name *

3. Student ID *

4. Which notion is recommended for quickly creating and communicating an architecture? * 1 point

Mark only one oval.

☐ Boxes and Arrows

☐ ADL

☐ UML

5. Which notion is recommended for creating an architecture for aircraft system software? * 1 point

Check all that apply.

- ☐ Boxes and Arrows
- ☐ ADL
- ☐ UML

6. The 4+1 View Model consists of _____. * 1 point

Check all that apply.

- ☐ Logical View
- ☐ Development View
- ☐ Deployment View
- ☐ Process View
- ☐ Data Model View
- ☐ Use Case View

7. Which view provides a blueprint for the source code. * 1 point

Mark only one oval.

- ☐ Logical View
- ☐ Development View
- ☐ Deployment View
- ☐ Process View

8. Which view presents a mapping between software elements and non-software elements in the software's environment. * 1 point

Mark only one oval.

- ☐ Logical View
- ☐ Development View
- ☐ Deployment View
- ☐ Process View

9. Which view presents the interactions among the elements in the software. * 1 point

Mark only one oval.

- ☐ Logical View
- ☐ Development View
- ☐ Deployment View
- ☐ Process View

10. A data model view can be _____. * 1 point

Check all that apply.

- ☐ a conceptual data model.
- ☐ a logical data model.
- ☐ a physical data model.

11. The C4 Model is a formal representation of an architecture. * 1 point

Mark only one oval.

- ☐ True
- ☐ False

12. The C4 Model consists of ____.*

1 point

Check all that apply.

- ☐ System Context Diagram
- ☐ Container Diagrams
- ☐ Component Diagrams
- ☐ Code-Level Diagrams
- ☐ Core Use Case Diagram

13. Code-Level diagrams are created using code.*

1 point

Mark only one oval.

- ☐ True
- ☐ False
