

Web Application Development - Introduction to JavaScript

Duration: 15 minutes.

* Indicates required question

1. Full Name *

2. Student ID *

3. Is JavaScript always executed sequentially? *

1 point

Mark only one oval.

☐ Yes

☐ No

4. Given the following HTML code snippet: `<script src="js/script.js" />` Is this HTML valid? *

1 point

Mark only one oval.

- ☐ No, it's missing a closing 'script' tag. It must always be there.
- ☐ Yes, the closing 'script' tag only needs to be there if JavaScript code is written in between the opening and closing 'script' tags.

5. Strict equality operator (===) differs from regular equality operator (==) in that it checks if both values on its right and left are of the same type first. If they are not then ____ *

1 point

Mark only one oval.

- ☐ It doesn't try to coerce them to be the same type and just returns false.
- ☐ it tries to coerce them to be the same type then checks both values.

6. Given the following code snippet: `var x = function () { console.log("Hello World"); return; }; x(); x = "Hello, I am a new value!";` Is the code valid? *

1 point

Mark only one oval.

- ☐ Yes
- ☐ No

7. Given the following code snippet: `var x = function () { console.log("Hello World"); return "Hello Function"; }; console.log(x); console.log(x());` Is the code valid? * 1 point

Mark only one oval.

☐ Yes

☐ No

8. Which variables have block scope? *

1 point

Check all that apply.

☐ var

☐ let

☐ const

9. An object in JavaScript is ____.*

1 point

Mark only one oval.

☐ a collection of name/value pairs.

☐ a collection of property names with their data types.

10. In JavaScript, a primitive type ____.*

1 point

Mark only one oval.

- ☐ can contain a single, immutable value.
- ☐ can be reassigned a new value.

11. In JavaScript, when a object is passed to a function *

1 point

Mark only one oval.

- ☐ its properties are not affected by modifications inside the function.
- ☐ its properties are affected by modifications inside the function.

12. What is the output of the following JavaScript code: `var x = 5; var y = x; x = 10; console.log(y);` *

1 point

Mark only one oval.

- ☐ 10
- ☐ 5
- ☐ null
- ☐ undefined
