

Web Application Development - Objects, Functions and Modules 01

Duration: 15 minutes.

* Indicates required question

1. Email *

2. Full Name *

3. Student ID *

4. `let person = new Object();` is the same as `let person = {};` *

1 point

Mark only one oval.

☐ True

☐ False

5. Is this code valid?: `let person = new Object(); person.Name = "Jane";` *

1 point

Mark only one oval.

☐ Yes

☐ No

6. Given the following code snippet: `function Person(name) { this.name = name; }; var person = Person('Jane');` The person variable is ____

* 1 point

Mark only one oval.

☐ a Person object

☐ null

☐ undefined

7. Given the following code snippet: `function Person(name) { this.name = name; }; var person = new Person('Jane');` The person.prototype variable is ____

* 1 point

Mark only one oval.

☐ an Object

☐ null

☐ undefined

8. What is the output of the following JavaScript code: `var counter = 0; var myArray = ["aString", 1, {aProp: "aValue"}]; for (var i = 0; i < myArray.length; i++) { counter++;} console.log(counter);` * 1 point

Mark only one oval.

- ☐ 0
- ☐ 1
- ☐ 2
- ☐ 3
- ☐ 4
- ☐ Nothing, there will be an error.

9. When a JavaScript engine executes a script, it creates execution contexts. Each execution context has ____ * 1 point

Mark only one oval.

- ☐ the creation phase and the execution phase.
- ☐ the global context and the function context.

10. Arrow functions differ from functions defined in other ways in one critical way: * 1 point

Mark only one oval.

- ☐ Arrow functions do not have a "this" keyword.
- ☐ Arrow functions inherit the value of the "this" keyword from the environment in which they are defined.

11. Immediately Invoked Function Expressions are usually used to place code into its own execution context * 1 point not to conflict with the ____.

Mark only one oval.

- ☐ global scope
- ☐ function scope
- ☐ block scope

12. What will log to console the following code snippet: `let count = 0; (function immediate() { if (count === 0) { let count = 1; console.log(count); // What is logged? } console.log(count); // What is logged?})();` * 1 point

Mark only one oval.

- ☐ 1, 0
- ☐ 0, 1
- ☐ 0, 0
- ☐ 1, 1
- ☐ Nothing, there will be an error.

13. What will log to console the following code snippet: `for (var i = 0; i < 3; i++) { setTimeout(function log() { console.log(i); // What is logged? }, 1000);}` * 1 point

Mark only one oval.

- ☐ 0, 1, 2
- ☐ 0, 0, 0
- ☐ 1, 1, 1
- ☐ 2, 2, 2
- ☐ 3, 3, 3
- ☐ Nothing, there will be an error.
